

PLOT PLAN

NEW CONSTRUCTION

Indicate lot dimensions, distances between the building and property lines, and street names.

The diagram shows a central blue rectangle labeled "Proposed Building" within a larger white rectangular plot. Four double-headed arrows indicate distances from the building to the plot boundaries: top, bottom, left, and right. Each arrow contains a blank space followed by "ft.". The plot is bounded by four street name fields: a vertical field on the left, a vertical field on the right, and a horizontal field at the bottom. Each field is a blue bar with a white input area.
