

## **NOTICE TO RESIDENTS**

### **Reference to: Recyclables Collection & Processing**

Please be advised that the Colchester Recycling Facility, which processes Blue Bag Recyclables from all of the Eastern Region, is temporarily closed as a result of the requirements for social distancing during the COVID-19 Pandemic and current State of Emergency. The Municipality of the District of Guysborough will continue to collect recyclables as usual during this temporary closure of the processing facility. All available temporary storage for recyclables will be used when possible. When temporary storage, or no other options are available, it may be necessary to dispose of some recyclable material in the landfill, in accordance with the terms and conditions of a "Certificate of Variance" received from Nova Scotia Environment for this temporary period. Residents are asked to continue to sort all of their waste and recyclable materials as usual to allow the recyclable materials to be sent to the recycling facility as soon as it reopens.

We thank residents for their help and understanding under the current circumstances resulting from the COVID-19 Pandemic.

**Signed:**
