

Update: Water Voucher System

The Municipality wishes to inform all residents that our Water Voucher System will be discontinued effective Wednesday, November 19th. This decision follows a review of current community needs.

Vouchers will continue to expire on their current dates, with the program ending at local retailers on December 3rd. After that date, vouchers will no longer be accepted.

We would like to extend our sincere appreciation to our local participating vendors for their partnership and support throughout the duration of this program. Their commitment has been vital in helping us provide water access and safe drinking water to households across our communities.

We thank all residents for their understanding and cooperation.
